About Pre-apprenticeship

A Pre-Apprenticeship career mentoring model provides students the ability to explore a career through a combination of classroom learning, site visits, and mentoring from experts in the field, before entering the workforce. The program provides an added, optional, online credential.

*** **NEW*** ** Effective Graduating Class of 2023: Pre-apprenticeship Completion Certificate is an eligible and approved High-School Graduation "alternative assessment" credential (PDE Act 158).

Who is eligible to participate?

The program is designed for high-school Juniors or Seniors, enrolled at participating partner schools, who are considering pursuit of an Apprenticeship in an associated trade after high school graduation.

Currently, state and federal funding is subsidizing this program, and the Manufacturer's Association is able to offer this at at no cost in an effort to provide an accessible and equitable opportunity in our region.

ACT NOW to access this offering while funding is still available.

SHOWCASE LUNCHEON

THE CONFERENCE CENTER AT
CENTRAL PENN COLLEGE

MAY 2, 2023

10:30

The Showcase Luncheon is your time to shine and demonstrate the value of the great work you do for our region.

This event is highly anticipated and enthusiastically attended by school superintendents, technical directors, state agency leaders, businesses, higher educational institution personnel, community organizations and more.

STUDENT PROGRAMS

CAREER CONNECTIONS: FOCUSED ON INDUSTRY

In person Career Connections events will continue in “round-robin” and panel formats. Hybrid and online offerings will include Q&A panels, offering interactivity, as possible. The CAIU has undergone major renovations, and we are excited to offer the opportunity to use and enjoy the beautiful new space.

In the “reproducibles” section of this program book, you’ll find a “Career Planner” that we will be using throughout the year that can serve as an “artifact” for your schools. It is a requirement of the PA Smart grant that PCD received, and we will be working hard to assure we receive all attendee info for reporting.

The PA Smart grant upholds access and equity as a paramount goal, therefore, PCD will be working hard to collect demographic data from school personnel about attendees.

ENGINEERING

Date/Time: October 4, 2022 9:45am - 12:00pm (includes a small group discussion over lunch)
Location: Livestream Panel (9:45am-11am) & CAIU Yellow Breeches Room

Meet engineers who design and build products you use every day at home, school, work and play. From cars to cell phones, from bridges to buildings, Engineering has a hand in shaping our world. In this interactive presentation, we’ll examine career options available. Learn from a live panel of engineers from across the industry.

Find out what Engineers really do. Presenters will be from Civil, Electrical, Environmental Engineering and more. Following the panel, we'll do small group discussions about common misconceptions and learn about different specialties in the field.

Automobiles, airplanes, and even cell phones were developed by engineers! Come and learn about this career path from experts in the field.

*This session is funded in part thanks to a BEP grant from PA DCED, and SCPa Works.

STUDENT PROGRAMS

CAREER CONNECTIONS: FOCUSED ON INDUSTRY

AIRCRAFT MAINTENANCE

Date/Time: October 20, 2022 9:45am - 11:30am
Location: Hybrid & Piedmont Air Hangar, Harrisburg International Airport

If you are a hands-on problem solver, this is the career for you! Come visit Piedmont Airlines at the Harrisburg International Airport, where you can explore aircraft maintenance areas, learn about the job and even get a behind-the-scenes tour of their hangar. This high demand work has great benefits that include travel perks, evening schedules, plus great pay.

Learn about Piedmont's offer of a tuition reimbursement program through Pittsburgh Institute of Aeronautics.

MANUFACTURING TOUR

Date/Time: October 25, 2022 9:45am - 11:30am
Location: Turner Hydraulics 1605 Industrial Drive, Carlisle
Small Group Presentation & Tour (10-15 students)

Turner Hydraulics is a family-owned business located in Carlisle, that provides hydraulic repair, service, sales, and solutions. Their 35,000 square feet facility houses not only a hydraulic repair shop, but, also, a retail showroom, machine shop, fabrication shop, sales and service departments, and an automation and panel building group.

Manufacturing is one of the top industries in PA, and an excellent choice for those who want a well-paying career with a strong future.

STUDENT PROGRAMS

CAREER CONNECTIONS: FOCUSED ON INDUSTRY

AGRICULTURE

Date/Time: October 26, 2022 10:00am - 12:00pm
Location: Bow Creek Farm, 817 E Canal Rd, Hershey, PA 17033

Agriculture isn't just about farming. It's everything you'd expect from a career in food and farming, plus more: farm-to-table industry, entrepreneurship and rural development. Join us at beautiful Bow Creek Farm for our first-ever Agriculture Career Connections. There will be plenty to see and do including a panel of speakers to educate you on the many aspects of this incredible career field. To top it off, there will be a tour of the operation so you can chat with producers while they work!

ACCOUNTING/FINANCE

Date/Time: November 1, 2022 9:45am - 11:00am
Location: Hybrid & In-person panel at Central Penn College, 600 Valley Rd, Summerdale

Learn about careers in accounting and finance, including banking, personal finance and risk management. Find out what it takes to succeed in one of these highly competitive fields. You'll learn how people find work, build a career and manage their time at work.

What is an actuary, anyway? The accounting and finance industry is a diverse field with a wide range of positions including banking, personal finance, non-profit, risk management, and yes, actuarial science! Come and hear from experts about what options are available in these important careers.

STUDENT PROGRAMS

CAREER CONNECTIONS: FOCUSED ON INDUSTRY

GIRLS IN STEM LUNCHEON

Date/Time: December 1, 2022 11:00am - 1:00pm
Location: Capital Area Intermediate Unit, 55 Miller Street, Enola PA 17025

Pew Research continues to report on the inequity in gender placement for STEM jobs across the US (Pew Report, 4/1/21). Their findings include: "Women make up a quarter or fewer of workers in computing and engineering," and "Women continue to be vastly underrepresented in the ranks of engineers and architects (15%)."

This luncheon event will provide girls with an overview of high demand occupations in STEM-focused fields where they can match interests, energy, and creativity with well-paying jobs where women are underrepresented.

BUSINESS OF WELLNESS

Date/Time: December 6, 2022 9:00am - 12:00pm
Location: Hybrid (Livestream 11:30-noon) & Capital Area Intermediate Unit

Come learn about the health and wellness industry's many needs from desk jobs and high tech imaging to personal care and healthcare facility needs.

Careers represented will focus on high-need occupations, many of which require less than a four year degree. Students will explore well-paying, in demand careers in our region, many that include portable (take them anywhere - in the world) transferrable (relevant for many industries) skills and credentials, allowing for an essential career path that can be done just about anywhere, and any time (round-the-clock needs means great schedule flexibilities).

STUDENT PROGRAMS
CAREER CONNECTIONS: FOCUSED ON INDUSTRY

VETERINARY SCIENCE/ANIMAL HEALTH

Date/Time: January 27, 2023 10:00am - 11:30am
Location: Virtual

Are you interested in pursuing a career in veterinary medicine, animal health or related areas? Hear from experts about how to get started. Topics covered include what types of jobs are available; qualifications needed for entry-level positions; salaries and the many different career paths available within the field.

There are many animal-related careers that do not require advanced degrees. Join us as we talk with an expert panel of professionals to learn about the many different jobs and ways to contribute to this highly rewarding field.

CRIMINAL JUSTICE/LEGAL STUDIES

Date/Time: March 7, 2023 9:45am - 11:00am
Location: Live-streamed & Central Penn College, 600 Valley Rd., Enola

Join us as a panel of professionals share the realities - not the TV versions - of their jobs and how you can narrow the field and join their team.

This is a great opportunity to learn about careers in law enforcement or legal studies, network with others in those fields, and gain insight into what it takes to succeed.

STUDENTS CAN ONLY DREAM ABOUT CAREERS THEY KNOW ABOUT.

You can help them find those dreams. This is not just about learning about careers, it's about making student learning more relevant. These experiences can help you to reframe teaching with the "why" they need to know that (math problem).

Sessions include information about high demand occupations and the associated educational/skill requirements.

Through the end of 2024, these sessions are being subsidized by the SCALE initiative, thanks to a PA Smart grant from the Pennsylvania Department of Education, meaning there is no additional fee to attend, but space is limited. Register now.

2023 GOVERNOR'S STEM COMPETITION

"INNOVATING THE COMMONWEALTH THROUGH COLLABORATION AND COMPUTING."

HYBRID FORMAT

September 6, 2022 Competition registration opens
November 6, 2022 Competition registration deadline
December 15, 2022 9:00 PM Logo submission deadline
February 6, 2023 9:00 PM Written and video presentations due

The Governor's STEM Competition will be held in a hybrid format in 2023, and the theme is "Innovating the Commonwealth through Collaboration and Computing."

The Governor's STEM Competition challenges student teams from across the state to research, design, and present a device or project that can make the quality of life better for Pennsylvanians by accomplishing a series of practical tasks that can fulfill real-world needs.

Team advisors will be given the opportunity to be mentored by regional intermediate unit STEM points of contact. Advisors will be notified by the intermediate unit as to who their mentor will be for this year. If you have not received information as to who your mentor will be by January 6, 2023, please email: govstemcomp@pattan.net.

Teams are required to partner with a member of their local community or business to develop a solution to a real problem rooted in the community this helps create an authentic experience for the students and provides opportunities for them to learn more about career pathways and employment opportunities based in STEM.

This year, students will prepare and submit a video to present their findings to the state competition. This video will overview and explain the practical applications of their device. The challenge tests the team's communication, problem solving, and critical thinking skills while providing a unique opportunity to share their creativity with students from across the state.

The competition is open to students in grades 9 through 12 who attend a public, charter, or private school, a career and technical education center, or a student being homeschooled in Pennsylvania.

Each team may have a maximum of five students and they must work under the guidance of an approved mentor.

Each team is provided with a $600 stipend to build a prototype of their device or project.

PARTNERSHIP for Career Development

What's So Cool About Manufacturing (WSCM) career awareness program gives middle school students a new perspective on exciting STEM career opportunities that exist at area manufacturing companies. The WSCM Program is implemented as a student video contest. Student Teams compete by creating short media stories featuring accurate images of today's manufacturing and promoting their video to peers, parents, educators, and the community. The contest culminates with public online voting and an Awards event.

What's So Cool About Manufacturing Career Awareness Program

2022-23 Authorized Consent Form

Thank you for your interest in the What's So Cool About Manufacturing (WSCAM) video contest! By participating in this program, your middle school receives at no cost:

- **Teacher professional development training (to be held in September 2022)**
- **WSCAM curriculum**
- **Editing and marketing consultation**
- **Technical assistance**
- **A local manufacturer partner assigned to feature (PLEASE NOTE: We will make every effort to match your school with a manufacturer in your local area, but cannot predict the manufacturers that will participate in this year's contest. Your understanding is appreciated.)**

Questions: Contact Cindi Moses at cindi@mantec.org

The What's So Cool About Manufacturing career awareness program was developed by Manufacturer's Resource Center.

* 1. **Submission of this for indicates that the district Superintendent and middle school Principal are aware of the school's participation in this program and agree to:**

- **Allowing 1.5 hours of Teacher-Coach professional development/training (mandatory)**
- **Ensuring Teacher-Coaches adhere to program guidelines and timelines**
- **Attending, along with any Teacher-Coaches and the student team, the Awards Event scheduled for late March, 2023**

◯ Yes, the Superintendent and Principal are aware and agree

TRAC™
Leading by Example

This module meets the following National Standards of Learning

National Science Education Standards: Physical Science

Grades 6–12

Science as Inquiry

- Identify questions that can be answered through scientific investigations.
- Use appropriate tools and techniques to gather, analyze, and interpret data.
- Use technology and mathematics to improve investigations and communications.
- Think critically and logically to make the relationships between evidence and explanations.

Abilities of Technological Design

- Identify appropriate problems for technological design.
- Design a product.
- Implement a proposed design.
- Evaluate completed technological designs or products.

Activities

Activity 1: Structural Concepts

Activity 1 is an interactive computer-based introduction to the basic concepts employed by a structural engineer when designing and building bridges.

Activity 2: Beam Me Up

Activity 2 involves three in-class demonstrations that illustrate some of the key structural concepts that are essential to understanding how basic bridges behave.

Activity 3: Bridge Analysis

Activity 3 consists of two parts. The first part serves as an introduction to the theory behind how engineers determine how much force is transferred to each member of a truss from the force applied to the structure. The second part of Activity 3 gives the students an introduction to computer-based design.

Activity 4: Draft it Up!

Activity 4 is a drafting activity utilizing Bentley Microstation PowerDraft v8i software. This activity will provide students with a basic introduction to CAD software.

Activities 5 and 6: Basic & Improved Box Bridge Structures

Activities 5 and 6 allow the students to take part in hands-on activities that guide them through the process of building their own bridges, which they will test in class as part of a design competition.

TRAC™ (TRAnsportation and Civil engineering) is a hands-on education outreach program designed for use in science, math, technology, and social science classes. By engaging students in solving real-world problems, sending volunteer mentors in the classroom, and supplying teachers with the needed materials. TRAC connects K-12 students to the working world of transportation professionals and civil engineers, and inspires them to consider careers in these fields. TRAC PAC 2 is designed for students in middle school and high school. Rides K–8 introduces elementary school students to basic transportation concepts.

This module meets the following National Standards of Learning for grades 9-12.

National Science Education Standards

Science and Technology

- Abilities of technological design
- Understandings about science and technology

Technology Foundation Standards

Basic Operations & Concepts

- Students demonstrate a sound understanding of the nature and operation of technology systems
- Students use technology tools to enhance learning, increase productivity, and promote creativity
- Students use technology resources for solving problems and making informed decisions
- Students employ technology in the development of strategies for solving problems in the real world

International Technology Education Association Standards For Technological Literacy

The Nature of Technology

Standard 3: Students will develop an understanding of the relationships among technologies and the connections between technology and other fields of study

Design

Standard 8: Students will develop an understanding of the attributes of design

Standard 9: Students will develop an understanding of engineering design

Standard 10: Students will develop an understanding of the role of troubleshooting, research and development, invention and innovation, and experimentation in problem solving

Abilities of a Technological World

Standard 11: Students will develop abilities to apply the design process

The Designed World

Standard 18: Students will develop an understanding of and be able to select and use transportation technologies

TRAC PAC 2

This module contains three (3) activities to teach students to observe real life transportation ecosystems, learn about manual and technology-based vehicle applications, and demonstrate the case for and use of Connected and Automated Vehicles (CAV) technology using scientific principles, programming, and coding using a Sphero RVR programmable robot.

Activities

Activity 1:

Observing Modes and Interactions in a Transportation Ecosystem

Activity 1 demonstrates to students the complexities of a transportation ecosystem and the infrastructure needed to support it.

Activity 2:

Manual Driving versus Connected and Automated Driving Using Sphero RVR in your Ecosystem

Activity 2 demonstrates to students the difference between operating a manually driven vehicle and operating a connected and automated vehicle using programming and coding.

Activity 3:

Applying Connected and Automated Vehicle Technology with Sphero RVR

Activity 3 demonstrates to students the safety and mobility benefits that can be realized when vehicles are connected and communicating with each other.

The RIDES "trunk" of materials is filled with a wide variety of items designed to bring math and science textbook concepts to life.

The RIDES curriculum units titled Transportation and Energy, Roadway Geometry, Humans and Nature, and Designing Ways take students on multiple adventures learning about transportation in relation to both math and science concepts. This curricula was designed specifically to:

1. Improve math and science achievement.
2. Provide teachers with lesson plans that teach core standards with hands-on activities.
3. Provide interdisciplinary strategies that incorporate other subjects such as art, language arts, technology, and social studies into the curriculum.
4. Introduce students to careers in the transportation industry as early as Kindergarten.

The RIDES trunk.

Roadways Into Developing Elementary Students is an AASHTO education outreach program designed to interest K-8 students in transportation careers while improving science, technology, engineering, and math (STEM). Students utilize critical thinking skills to solve real world problems and learn about careers in the transportation industry especially civil engineering.

The curriculum is aligned with the National Standards for Math and Science, 21st Century Skills, and Core Curriculum Standards for Math and Science. Teachers attend two days of high energy training conducted by National Board Certified Teachers. This module contains a curriculum as well as a large trunk of resources for the teacher to use in the classroom to conduct the activities.

A few quotes from teachers who have attended RIDES training:

"The training was fun and energetic."

"I enjoyed the hands-on activities and I am excited about the resources I am taking back to my classroom."

"The training has given me so many ideas that will motivate my students."

"I loved learning strategies for my classroom"

2022-23 Dates at a Glance 88, 89
SCALE Overview 91

The Partnership for Career Development (PCD) is working to help balance the **SCALE** for Science, Technology, Engineering & Mathematics (STEM) Focused Careers.

The PA Department of Education's PA Smart initiative is helping to support PCD's four-part system for equitable STEM career exploration and awareness: SCALE.

SCALE
STEM COLLABORATIVE ALLIANCE FOR LEARNING EQUITABLY

SCALE OVERVIEW

STUDENT CAREER AWARENESS PROGRAMS

PCD's Career Connections, in-person, hybrid and Online HUB career exploration offerings designed to connect students directly with businesses offering work-based learning opportunities.

COMMUNITY OUTREACH

PCD is partnering to develop, organize, and present panels and workshops at community-focused events about the many STEM related careers, and the variety of higher educational requirements including apprenticeship. A Career Expo is also in development.

PROFESSIONAL DEVELOPMENT SESSIONS

PCD is developing sessions for both the educational community, and the business community to debunk myths, and bring awareness of STEM needs for a more equitable workforce.

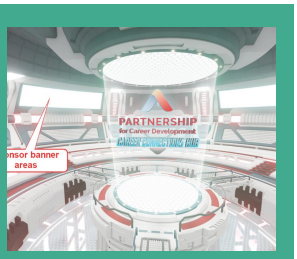

CRADLE TO CAREER ALLIANCE

The Cradle to Career Alliance is a multi-county initiative, based on a collective impact model, and designed around the collective goal of Career and Workforce Readiness. PCD will be reviewing and re-launching this, as well as its Advisory Council.

Contact PCD to get involved.
PCD is a nonprofit Business-Education Partnership Intermediary for Career & Workforce Readiness in South Central PA.
